

System Record Documents (SRD) Cabinet Fire System Record Documents

Description

The Notifier System Record Documents (SRD) Cabinet is the perfect solution to comply with the demanding code standards required today. Notifier's primary goal is to manufacture code compliant solutions and this product allows you to do just that. The SRD cabinet is the answer to comply with the NFPA 72 2013, Section 7.7.2.1 requirements which states, "With every new system, a documentation cabinet shall be installed at the system control unit or other approved location at the protected premises."

This cabinet is constructed of durable 16 gauge steel with a solid piano hinge and key lock. The cabinet includes a 4GB USB memory flash drive interface. Using a standard USB B connector, the USB flash drive interface allows you to use any standard USB printer cable to upload or download information. This feature allows you to store your records electronically in one secure place, so that the Technician can easily access the software and service the system. (Refer to NFPA, 72 2013, Section 7.5.6.7).

Along with the fire alarm control panel software, you can store your test and inspection documents, service records, manuals & AS built drawings for the system.

The System Records Document (SRD) cabinet inner door has two, key ring hooks to hold system keys. In the inner door, you can add the Legend Sheet to record property, system, service, code and AHJ certification information, as well as required documentation. (See Figure 2).

Features

- Installed with a 4 gigabyte digital flash drive interface with USB B connector
- Offers two, key ring hooks to hold the system keys.
- Contains a frame plate to insert Authorized Personnel business cards
- Includes a Legend Sheet to record passwords and system information.
- Constructed with 16 gauge steel box and cover for added security with a solid stainless steel piano hinge.
- Coated with a durable baked-on enamel finish (other colors available)
- Built with a stainless steel piano hinge with standard ¾" CAT 30 keyed door lock (other lock assemblies available).

Specifications

SRD System Record Documents Cabinet Dimensions: 12" W x 13" H x 2 1/4" D (30.48 W x 33.02 H x 5.71 D cm).

Door Keylock: Barrel lock and piano hinge. 3/4" barrel lock and 12" (30.48 cm) piano hinge.

FAD Cabinet: UL® Listed, constructed of 18 gauge cold rolled steel.
